A LITTLE ABOUT ME

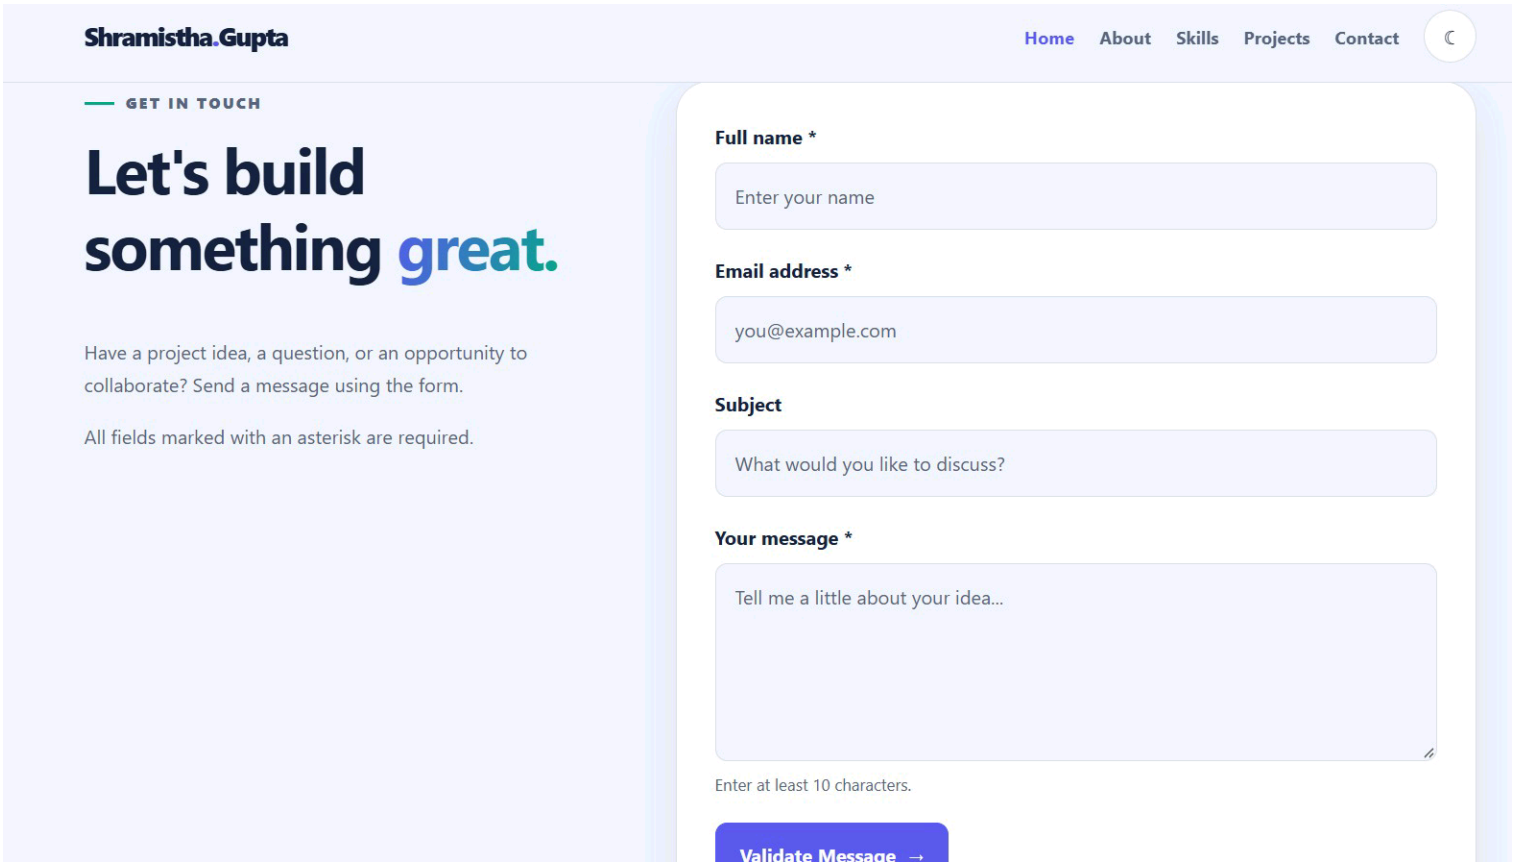

Curious by nature.
Driven by code.

I enjoy using technology to solve real-world problems. My approach combines logical thinking, accessible design, and continuous learning.

I'm interested in building software that is not only visually appealing but also understandable, maintainable, and usable across different devices.

What matters to me

- Accessible and inclusive user experiences
- Clean, readable, maintainable code
- Responsive layouts for all screen sizes
- Continuous learning and collaboration
